5 Removal of Student During School Day

6
7 The Board recognizes its responsibility for the proper care of students during a school day. In
8 accordance with District procedures, only a duly authorized person may remove a student from
9 school grounds, any school building, or school function during a school day. A person seeking to
10 remove a student from school must present evidence satisfactory to a principal of having proper
11 authority to remove a student. A teacher should not excuse a student from class to confer with
12 anyone unless a request is approved by a principal. The Superintendent will establish procedures
13 for removal of a student during a school day.
